WORLD NEWS IN REVIEW

DIES DIES HARD

The political folly of fighting fire with fire has been neatly shown in the case of the New Deal leaders versus Martin Dies. The Special Committee Investigating Un-Americanism might long since have been a forgotten issue. But the ridicule directed at Dies made him a national figure.

The continuation of his Committee for another year, with an appropriation of $100,000 as against $25,000 with which it started was overwhelmingly voted by the House last Friday, 344 votes to 35, and whether the White House is prepared to admit or not, it is a galling defeat for the Administration which has fought the Committee from the very beginning.

FOREIGN POLICY

With every would-be leader in the nation defining President Roosevelt's foreign policy, it is with relief that we learn of his own redefinition.

The real American foreign policy, he said, could be very simply defined in the following terms:

1. **Against any entangling alliances.**
2. In favor of the maintenance of world trade for all nations, including the United States.
3. In complete sympathy with any and every effort to reduce or limit armaments.
4. "As a nation, as an American people, we sympathize with peaceful maintenance of the political, economic, and social independence in the world."

OIL

The United States Navy is taking an active interest in what becomes of those submerged oil pools along the California Coast. The Navy wants to make sure that, whatever is done about title to these oil deposits, an ample amount be set aside as a Naval reserve. The Nye resolution, now before Congress, authorizes the United States Attorney General to establish title and possession by the United States to all such submerged oil-bearing lands.

SET MARCH 7-14 CONSERVATION WEEK FOR STATE

Governor Culbert Olson Named Honorary Head Of Observance

Through the efforts of sincere conservationists California Conservation Week, March 7-14, will be fittingly observed in every city and county of the State. This was announced this week as the long-heralded plan for the California Conservation council headed by Governor Culbert L. Olson and Miss Pearl Chase, Santa Barbara, respectively the honorary chairman and chairman of the fifth annual observance.

County and state-wide officers of the week say that the observance will awaken even further interest throughout the nation as a result of conservation exhibits and demonstrations at the Golden Gate International exposition on San Francisco's Treasure Island, March 7-11.

Announcement of Conservation Week activities for 1939 came from a group of government officials, educators and leaders of organizations concerned with the conservation and wise utilization of natural resources.

Educational Effort

"Our work is to promote conservation education and encourage cooperation in conservation effort," Miss Chase stated at Forest Service headquarters, one of a score of agencies and groups actively forwarding the observance. "On its own merits California Conservation Week has grown to the place where almost every important organization and club is cooperating with state and federal departments in a response to the needs of our human and natural resources. Our work has shown good results but we still have a long way to go."

The greater trend toward conservation education in recent years is reported to have contributed profits in forest fire prevention, conservation of soils and waters, restoration of wildlife, preservation of wilderness areas, increased recreational use of parks and forests and other worthy projects.

County conservation chairmen and committeemen are now being appointed by the state-wide committee to insure full educational observance in all sections of California.

The Levi Rodeo, a wild west show done in miniature by puppets and wooden horses which are animated by electrical motors, will thrill millions at the Golden Gate International Exposition.

Board Asks Working Agreement

The problem of unified county-city health service was delegated back to the district attorney, health director and county executive by the board of supervisors Tuesday with instructions to draw up a definite working agreement for extension of the county service to the municipalities.

March 1 Deadline

With March 1 suggested by Executive Fred Peterson as the deadline for contracts between the county and the cities, the officials were requested to determine two factors:

1. What the cities desire in the manner of local health and sanitation regulations and enforcement over and above the standard requirements of the state.

2. What this additional service will cost, and whether the county should be compensated on the basis of actual cost or should enter into "dollar a year" contracts with the cities, as practiced in some counties.

The question of additional service "with or without cost" to the cities remained the principal unsettled point after a long discussion at the board's afternoon session.

Wants Cost Detail

"We want details as to what the county will be stepping into on the $1 a year basis," said Supervisor Fred E. Beer of San Mateo.

Two separate problems involved are (1) state health requirements and (2) additional municipal requirements, Beer said.

"The county can enforce state health regulations in the cities upon resolution of the city councils requesting the county to do so. Any additional service, in fairness to the county, should be paid for by the cities," declared Beer.

"There should be unified service covering the incorporated and unincorporated areas, but how to do it without the taxpayers still paying for something they don't get, is still not clear.

Double Expense

It was pointed out that, although the taxes for maintenance of the county health department are applicable to the entire county, a considerable area is not deriving the benefits of the health service.

Directory Out In Few Days

One of the most interesting and informative publications of the year will be issued within the next few days, when Daly City's first civic and commercial directory goes to press. In manuscript form the directory already contains more residential advantages and vital statistics about Daly City than has ever before been compiled.

This wealth of absorbing information will be published as a beautiful 48-page book amply illustrated and filled with interesting and little-known facts. Commemorating the opening of the World's Fair, the cover background will be a beautiful silver reproduction of an artist's conception of the Tower of the Sun. A copy of this book will be distributed free to every home in Daly City.

Both civic and commercial sections of the directory go to press within a few days. Any organization not yet included should make arrangements at once. Last call is also being issued business houses wishing to take advantage of this excellent medium for display space. All inquiries should be addressed to the Daly City Record office, RA 3215.

EDDIE WHITE HAS FANCY BEARD

Displaying great enthusiasm for the coming Daly City celebration, Eddie White yesterday put himself in the lead for one of the Whisker Derby prizes, by commissioning John Hogan to shave a perfect "Daly City" out of his luxurious beard.

The "Daly" is on the right side and the "City" is on the left.

The most powerful short wave transmitter in the United States will blanket Asia and South America with news of the Golden Gate International Exposition broadcast from Treasure Island, General Electric company officials have announced.

Huge Crowd To Throng Magic Isle

A "magic city" on San Francisco Bay glistens in the sunlight. Thousands of workmen and executives alike are in a flurry of inevitable last minute excitement, preparing for the gigantic California World's Fair Premiere set for next week, February 18 and 19.

Guides and guards are trying on colorful new uniforms, elephant trains make the circle of the 400-acre island on the trip which millions of visitors will take in the next 10 months.

Expect 300,000

Scores of beautiful girls are ready to swing into action as hostesses and cashiers, as guides in individual exhibits, and as dancers and entertainers in Gayway attractions. Barkers are saving their voices for the Premiere, to shout at 300,000 persons who visit the Exposition on opening day.

For Treasure Island opens at 8 a. m. on Saturday, February 18, and high noon on that day will see the start of impressive ceremonies officially announcing to all the world that the World's Fair has begun.

Hymn of Joy

At 12 noon the tones of the giant 44-bell carillon in the Tower of the Sun will echo through the beautiful courts and gardens. Muted trumpets will sound. Then an invocation will be offered, and a hymn of joy will come from a chorus of 500 mixed voices. State, city and Exposition officials will speak briefly, and at 12:30 p. m. President Roosevelt will deliver a nation-wide radio address, officially declaring the exposition open.

All day there'll be excitement and thrills. The spectacular "Cavalcade of the Golden West" will dramatize Western history. Musicians will stroll about the grounds entertaining guests. A symphony concert is set for afternoon, and later two swing bands will play for free public dancing.

Beauty Contest

Leading skiers of the world will leap off a slide starting 186 feet in the air, the height of a 14-story building. Finals of a state-wide beauty contest will be held, and special children's shows and an invitational grand ball in the evening. There'll be a livestock show with $70,000 prizes and an international boat parade in the Port of the Trade Winds in which scores of craft will pass in review.

LONG STEEL STRIKE HOLDS UP WORK

Prolonged strike by steel workers is holding up progress on Daly City's new city hall, according to inspectors on the job.

Called approximately a month ago, the strike is delaying work on other jobs in the county. Nearly 400 carpenters and 200 laborers have been laid off, in the county, it is reported, because they are unable to proceed until further steel work is completed.

All Daly City Joins In Community Fiesta

Beards Meet With Approval

With all the deft subtlety and tact of a master diplomat, (merely a facetious simile by way of introduction) Grant Williams, local candy-maker with the flaming red beard, decided yesterday to get the jump on the poll-takers by conducting a little questionaire of his own on the subject of beard-raising.

The results were somewhat startling to Grant, who assured the press that the poll was conducted in a fair and unbiased manner. Seeking to get a cross-section of public opinion, especially that of the fairer sex, in regards to the merits of the whisker-growing and costuming now in full swing, Grant's poll showed that out of 29 local lassies who submitted to questioning, 25 were definitely in favor of the Wild West aspect, beards and all. Two women took firm stands aganist the whole idea of facial decorations and costumes, while others displayed no interest on either side.

Fewer men were questioned, but the buckaroos came through with a slightly higher average than the Western Women, having 16 "Yeses," no "No's," and but two who would not voice an opinion.

All-in-all, the poll should open the public's eyes to one fact, which is: "Women really don't object to the whiskers and stuff that goes with them, but merely take pleasure in heckling their husbands, boy-friends and gentlemen acquaintances."

MOUNTED PARADE

Local men and women in costume, store fronts decorated in good old forty-niner fashion, THE TOWN SHOW, and plans for a mounted parade along with hay rides are turning Daly City into a happy, colorful, and exciting Fiesta community.

Next week will come the great date Daly City and the world has been waiting for with breathless expectations—opening of the Pageant of the Pacific on Treasure Island. The local chamber of commerce is arranging an appropriate celebration for the great occasion.

An early western theme has been selected as a background for local activities. Cowboy, miner, and Spanish costumes are in order. History is repeating itself, and horses are again the mode of travel. Men are packing the law on their hips and whiskers on their face. A mounted parade is scheduled for Wednesday evening to start at Mission street and San Pedro road at 7 o'clock.

THE TOWN SHOW

Activities here will whirl to a grand finale Thursday evening, February 16, at THE TOWN SHOW, gala community all-western theater party at the Daly City theater.

Judging of the whisker derby and cowgirl costume contest will be featured during the rip roaring vaudeville show. A brand new singing-flashing cowboy picture, "Under Western Stars," is scheduled as the major screen attraction. Twenty grub stakes will be given away as door prizes. Here is Daly City's party of a life-time, and there's no raise in regular theater admission prices. You just can't miss THE TOWN SHOW.

Daly City Chamber of Commerce members are divided into three camps to promote THE TOWN SHOW. The North End Riders, Top of the Hill Rangers, and South End Wranglers—that's what they've chosen to call themselves. Each camp declares they'll show the town how to grow whiskers, costume pretty girls, and put some real spirit in the local celebration.

Al Bulf, John Sireix, and Fred Knoll are bosses in the North End Camp. Bob Meritt, Hugh Smith jr., and Tony Milo are leading the Top of

Discuss Employment Problems at L. A.

Administrative and legislative problems confronting the California State Department of Employment were discussed Monday before executives of the North American Aviation Corporation in Los Angeles by James L. Matthews, chairman of the California Unemployment Reserves commission and C. B. Tibbetts, member of the commission representing large employers.

Commissioner Tibbetts outlined the organization of the department and discussed its two-fold task; first, placing unemployed workers in suitable jobs; and second, payment of unemployment compensation benefits to eligible unemployed workers.

Both Chairman Matthews and Commissioner Tibbetts outlined the proposed legislative changes in the Unemployment Reserves Act which have been suggested by the commission to accomplish a three-fold purpose:

1. Simplification of administration.
2. Provide for effective enforcement procedures.
3. Cover loopholes to prevent tax evasion found to exist during the past two years of administration.

LAMB CHOPS FOR FEBRUARY PARTIES

February definitely is the "party month," for within its twenty-eight days, there are three grand excuses for parties — Lincoln's birthday, Saint Valentine's day, and Washington's birthday.

Lamb chops, garnished in keeping with the spirit of the day, make an attractive and delicious dish to serve at any or all of these entertaining events. The lamb chop platter garnished with rosy tinted apples as shown above makes an ideal party dish for the Saint Valentine's day luncheon or dinner, with the color of the rosy apples blending perfectly with the red and white color scheme of hearts and flowers. For the Washington's birthday dinner, fill the centers of apples with a mixture of chopped cherries, nuts and honey, and garnish the platter more elaborately with red cherries. For the Lincoln's birthday dinner, serve lamb chops with corn bread, baked in log or corn shaped pans, and a log cabin salad, made by piling asparagus tips, one on top of the other to form a log cabin in appearance.

How to Broil Lamb Chops

For broiling, have the lamb chops cut thick. Thoroughly preheat the broiling oven with the regulator set high. Place the chops on the broiler rack so that there is a distance of about three inches between top of chops and source of heat. If this distance must be less, reduce the temperature accordingly. When the chops are nicely browned on one side, season them with salt and pepper, turn them and finish the cooking on the second side. Chops cut 1-inch thick require about fifteen minutes for broiling.

Menus featuring lamb for each of the three holidays are suggested by Inez S. Willson, home economist.

Hiway Patrol Chief Answers All Traffic Questions

Chief E. Raymond Cato, California Highway Patrol, each week conducts a traffic question-and-answer column. The public is cordially invited to submit their queries to the chief at Sacramento. Answers to the letters will appear at an early date.

Following are this week's questions and answers.

Q—Traveling between Madera and Merced the other day I sounded my horn as a warning that I wanted to pass to the left of another vehicle. This driver waited until I was opposite his car and then speeded up nearly causing me to have a bad accident. Who was wrong? E. P. P.

A—The other driver was wrong and selfish in doing as you state, as the law is clear that he should not have increased the speed of his car until you had completely passed him.

Q—Must an arm signal be given where there is other traffic in sight or not? A. F. W.

A—Only in the event any other vehicle may be affected by a movement, must a signal be given. However, it is a good habit to give signals at all times because, too often, vehicles approach from the rear or side streets which were not previously in sight.

Q—How many persons are permitted in the front seat of an automobile? D. H. C.

A—No specific number is given and because of varying circumstances, the law states no person shall drive a vehicle when it is so loaded, or when there is on the front seat such number of persons as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism.

Q—What is the toll to be paid to walk across the San Francisco-Oakland Bay Bridge? Miss M. V.

A—Pedestrians are not permitted upon the bridge at any time.

Q—I am still nervous because last night a truck or bus kept so closely behind me and crowded me so much I finally had to drive off the road and let it pass. I was travelling at exactly 45 miles per hour as I believe that speed is a safe limit at night. Are vehicles permitted to do that?

A—They are not. While there is no particular distance mentioned by law as a safe one between other than trucks and trucks-and-trailers, it does say no driver of a motor vehicle shall follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicle and the traffic upon, and the condition of, the roadway.

New Model Car Features Streamline Styling

These pictures of the new 1939 De Soto clearly show the smooth flowing contours of the car's new streamline styling, which sweeps back in one unbroken line from the gleaming, chromium radiator grille to the concealed luggage locker in the rear. Bigger, wider, longer and roomier than any previous model, this De Soto eliminates the old-fashioned trunk "bustle," providing at the same time 23 cubic feet of usable trunk space, or 27 per cent more than the big trunk on the 1938 models.

Legion Auxiliary Plans Initiation

Daly City Unit 410, American Legion auxiliary, held its regular meeting on Wednesday evening of last week and plans were made for initiation of new members on Wednesday evening of next week (February 15).

Two national essay contests have been announced and placed in the local schools. Thousands of young writers in every part of the country are expected to participate, with scholarship and cash prizes rewarding the winners. "Queen Marie of Roumania, Ambassador of International Good Will," is the subject for the 1939 Fidac Essay contest, designed to interest young Americans in the international friendship program of Fidac, the interallied veterans federation. The National Defense Essay contest for 1939 has two subjects, "What Adequate National Defense Means to American Youth," for senior high school students, and "Why Strong National Defense is Essential to Enduring Peace," for junior high school students.

The essays are to be submitted through the local unit of the American Legion auxiliary. Entrants will compete first in local contests and the local winners in state contests. The state winners will be eligible to compete with the winners from other states for the national awards. The national award for the Fidac essay will be a $200 scholarship; the best National Defense essay by the senior high school student will be awarded $150, with a prize of $75 for the second best.

The regular meeting of the twenty-sixth district will be held in Millbrae tonight (Friday), and the next regular meeting of the Daly City unit will be held on Wednesday evening of next week. The next monthly afternoon whist will be held on Thursday afternoon, February 16, at 2 p. m.

How Far?

How far from the corner is it legal to park?

How close to a fire hydrant can you park?

What's the speed limit in the downtown area?

Do you know the answers to these questions? If you drive a car or hope to, these are things you should have on the tip of your tongue.

If you don't know the laws of safe driving, the National Safety council suggests that you get in touch with your police department and ask them for a copy of your local ordinances. The San Mateo County Traffic Safety commission at the county court house can furnish you with a summary of the California Vehicle code.

What The Eagles Represent In Fraternal Field

(Editor's Note:—The following is the concluding section of an article by Conrad H. Mann, managing organizer, Fraternal Order of Eagles. It is reprinted here as a courtesy to the Colma Vista Grande Aerie, F. O. E.)

Its Four-Point Program

This Order has, therefore, established as its fundamentals the following factors:

1. The payment of financial benefits in case of sickness or death.
2. The furnishing of physician's services for the member and his family.
3. The supplying of a social life that the majority of our members would not otherwise enjoy.
4. The carrying on of a persistent national effort to make the lives of our members and their families happier through bringing about humanitarian measures designed for their protection.

When we talk about "true fraternalism" we find that we cannot emphasize just one or two of these factors and disregard all others. True fraternalism, in the sense of brotherly or mutual cooperation, can come only from the sum of all such factors as I have mentioned above. I admit, without argument, that these factors did not all exist in the F. O. E. at the time this Order was founded forty years ago.

Our evolution from the awkward, ungainly puppy stage of the early 1900's was slow and gradual. But fortunately the leadership within the Order began the process which eventually brought about this well rounded fraternalism early enough to make it an actual fact in this particular decade. In its younger days this Order was a roistering, enthusiastic, organization that loved its clambakes, its entertainments and the good fellowship involved. It was only as it grew older that the place it now fills was properly visualized by men who saw what it could do for the "average man."

Development of the Objectives

The change came about because the Order was composed primarily of men who had to work in order to live, and whose paychecks represented their entire annual income. Whenever individuals of like income, working conditions, and general surroundings get together as a unit there will very naturally be agreement as to the mutual problems involved, as well as a discussion of possible solutions. Since they belong to the same organization, these discussions became crystallized in the form of resolutions on the part of the organization units and, if worth while, eventually find their way to the conferences held by the representatives of all units. They then become national objectives and, if the organization nationally is powerful enough, they soon become far-flung economic and political issues.

So it is with this Order. And as its power and prestige increased, its membership increased in proportion. It was the logical result of what might be termed "pure" fraternalism, as differentiated from the type of fraternalism that is merely a name and which is used to cover everything from an organization of high school students to a business men's club. Pure fraternalism must include more than the bare fact that a certain group has gathered together for some particular purpose. There must be common problems; and assistance must be made possible from a common fund; there must be an aggressive and active interest in the solution of mutual difficulties by mass action; there must be a social program which will enable all the uniting individuals to derive enjoyment out of contacts with each other and their families; and there must be a general concession on the part of all members as well as all subordinate units that these things can only become permanent and lasting through a centralized, yet democratic control.

Powerful Force For Good

Such an organization as this can make its voice felt without violence and without physical aggression. It can speak through the ballot box. It can mold public opinion. It can become a powerful force for good. Its very nature makes it inherently impossible that it be a force for anything but good. Certainly no one can deny that if such organizations as these had been in existence in European countries the chaotic conditions of the last forty years would have been largely avoided.

That our procedure has been sound is proved adequately by the record. And the best record is that which pertains to growth. The year before last this Order added 125,000 new members, everyone of them a dues-paying member. In the succeeding eighteen months 150,000 additional have been added. In other words, 275,000 members have been added in the last two and a half years. In spite of industrial and economic conditions that have taken a heavy toll, we have not only held our own but we have made a substantial net increase. That result has come from what I have outlined above, plus a sound and well developed membership procedure that does not depend on chance and which does not concern itself with "ballyhoo." It is a growth that has depended primarily upon the ability and willingness of our present members to sell the ideas and the services of the Order to their friends and associates in the same walks of life. Such growth as that cannot help but be permanent.

Invite Children To Hi School Gym

Students interested should contact a recreation leader and enroll at Jefferson or Wilson schools, at the park, Acton and Brunswick streets, at the woodcraft shop, 6270 Mission street or at the recreation office, 101 Park avenue.

"Run Little Chillun" Breaks West Coast Record

All attendance records for a Pacific Coast Federal theatre production have been broken by the current all-negro musical drama, "Run Little Chillun" at the Alcazar, it was announced today by Charles P. Teevin, Northern California director. Indications are that before the present engagement is concluded a new high will be set for all Federal Theatre units in the country to shoot at, it is said. Interest in the play continues unabated.

"Run Little Chillun" has a cast of 150 colored singers, dancers, and actors, all of whom were trained by Hall Johnson, noted negro choral director and author of "Run Little Chillun." Johnson first was given prominence in the theatrical world when he directed the choral group in the New York success, "Green Pastures." He is now a resident of California contributing much to the cinema and radio.

Success of the play, aside from the writing itself, is attributed to the enthusiasm, sincerity and adaptability of the huge colored cast of actors. The Alcazar is filled to capacity nightly but many desirable seats are obtainable for every performance.

Chapman, Pacific coast scout of the Cincinnati Reds organization, announces that the annual Northern California camps of the Reds will be held at San Jose (Graham Field), February 18 to 20, and Berkeley (San Pablo Park, two blocks east of San Pablo avenue, between Ward and Russell), February 21 to 25, each day from 10 to 2. The camps are free to all unsigned players between the ages of 17 and 21, for all three or five days or for as many as they can attend.

Enquiries may also be made of Mickey Shader, 1365 Green street, San Francisco; Bob Freitas, Box 421, Santa Clara; and Ray Robb, 1633½ Sixty-second street, Berkeley.

South SF Library Selects Art Works

Eleven lithographs, four oil paintings, and four water-colors by WPA Federal Art Project artists have been selected by the officials of the South San Francisco library on the governmental permanent loan plan of art works to tax-supported institutions.

Any public institution may select easel painting, graphic prints, and miscellaneous art items from the WPA Federal Art Project gallery for the nominal cost of the actual material used in the art work. This permanent loan plan of such work by the finest contemporary artists is proving exceedingly popular throughout the country. Art, for the first time in history, has come to the people of America.

The selected graphic prints were by George Gaethke, while the paintings were by Sofie Branner, Ann Medalie, and Maurice Del Mue. Water colors were by Suzanne Scheuer, Dong Kingman and Yoehido Sekido.

FAMOUS "TALL TALES" INCLUDED IN GUIDE

In old California "tall tales" seem to have been a major branch of literature, as witness the performances of Mark Twain and Bret Harte. Other amusing examples were encountered by the WPA Federal Writers' project while compiling "California: A Guide to the Golden State," which will be published in March, 1939.

In "A La California" Colonel A. S. Bevans reports the remarkable experience of a friend of his. This gentleman had the misfortune to fall off the roof of a three-story building at the corner of California and Montgomery streets, San Francisco. As he fell past the second story he happened to glance through the open window of a certain room. Inside a party of men were playing seven-up. Noticing that the unscrupulous dealer was just turning a jack from the bottom of the deck, the falling man had the presence of mind to shout, "None of that!"

ALMANAC FOR '39ERS

In old San Francisco newspaper editors did not enjoy the protection of the game laws. The evidence as to the hunted condition of gentlemen of the press is found in "Almanac For Thirty-Niners," recent publication of the WPA Federal Writers' project. To quote:

"Reminisced 90-year-old Julia Judge about early San Francisco: 'There were quite a few shootings then, but it was editors and so on.... not like the murders we have now.'"

"Almanac For Thirty-Niners" is a compilation of useful information, historical tid-bits and outrageous fancy for every day in the year 1939. It also contains the official calendar of events for the 1939 World's Fair on Treasure Island.

Mr. and Mrs. James Laffette and son, Mrs. George Malino and daughter Mildred and Mrs. Lilly Band, San Francisco, were guests Saturday at the home of Mr. and Mrs. Peter Dormoy, Mission circle.

Daly City Theatre To Show "The Great Waltz"

Miliza Korjus, Fernand Gravet, Luise Rainer in "The Great Waltz"

Elaborate Scenes for New Musical Spectacle with Luise Rainer, Fernand Gravet and Miliza Korjus, Include Palace Ball with 200 Dancers Performing in Area Covering a City Block

Reproducing the pomp and glory of ancient Rome or any other place or period is everyday work to the technicians of Hollywood. It is a process of intensive research, designing and building of sets, assembling of properties, costumes, uniforms and people.

Reproducing Vienna in the days of Johann Strauss, in the reign of Franz Josef, the happiest and gayest period in the city's history, involved many tasks unusual even to the technicians when this was done for "The Great Waltz," musical spectacle based on the composer's life and featuring his music. It comes Sunday to the Daly City theatre for a three-day engagement.

To simulate Strauss' own orchestra, strings predominated in a ninety-piece orchestra composed of the cream of symphony musicians. Twelve genuine Stradivarius and Amati violins were assembled by Metro-Goldwyn-Mayer, mostly from the Erich Lachmann collection, for the first row of the orchestra. A chorus of eighty voices, accompanied the voice of Miliza Korjus, Viennese opera star.

Unusual "props" on the set included two ancient "bone shakers," forerunners of the bicycle, built in 1848, a year before gold was discovered in California, a harpsichord built in the same period, which was used in the pit of the Imperial Opera, a genuine fiacre, forerunner of the cab, brought from the Austrian capital, three silver services worth fortunes and actually used in Vienna in the period.

Elaborate sets included the grand ball in Hohenfried Palace, a room the area of a city block with six giant chandeliers, a grand staircase, marble pillars, twenty-four arches, inlaid onyx and marble floor, with 200 dancers performing the minuet. Twenty-two different uniforms, authentic copies of all the officers' uniforms in the Austrian army of the time, dragoons, uhlans, hussars and the rest, were created for the sequence.

The Imperial Opera with its diamond horseshoe, candle footlights, great chandelier, the emperor's box with the royal coat-of-arms, was built from pictures and authentic descriptions and peopled with several hundred patrons. Albertina Rasch reproduced the ballet of the story as it was staged at its opening performance. There were 128 dancers.

Luise Rainer, as Strauss' wife, Fernand Gravet as Strauss and Miliza Korjus as the opera singer who won the composer's love, head the brilliant cast.

Companion picture is "Service De-Luxe" with Constance Bennet.

Although the honored friend was not present the gifts were opened and then wrapped for mailing to her at Long Beach.

The guests were Mr. and Mrs. Clark Williams, Mr. and Mrs. Ed Williams, Mr. and Mrs. Winton Vagedes, Mr. and Mrs. Fred Klees, Mrs. Nell Dorrance and Miss Florence Kennedy.

Mr. and Mrs. Irvin Kramer, Acton street, entertained as their house guest for the past week Mrs. John Crews, Fresno, a former school mate of Mrs. Kramer's.

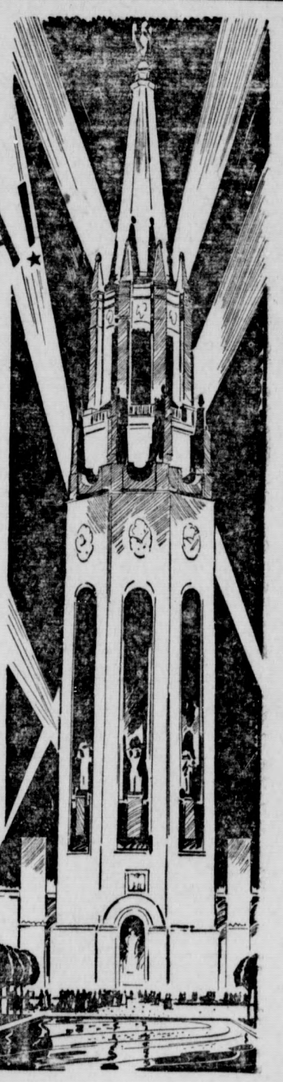
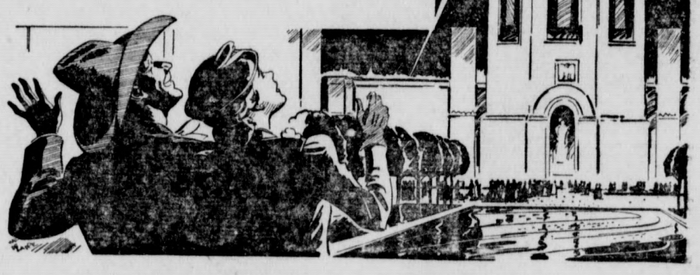
It makes me feel like shouting HURRAH for CALIFORNIA!



Yes, ma'am, we've got plenty to celebrate about out here in this land from the Sierra to the Golden Gate.


No king or queen has ever spent a winter more comfortably than we have. A dozen servants stoking up a fire couldn't have kept any home at just the right temperature as well as our Natural Gas heating did last winter. Think of us, and the thousands of Californians just like us, who were pressing a button or tuning in on a thermostat and sitting and absorbing the comforting warmth from some Natural Gas heating machine.
Let's tell the world about it. I feel like shouting—Hurrah, hurrah, hurrah, for California—where Life is easier, better and cheaper.
